Alexander County Manager
Adm. Bldg. 225 Liledoun Road
Taylorsville, NC 28681

Re: Full Approval of the Transition Plan for the Alexander County MSW Landfill, Permit Number 02-01

Dear Mr. Mashburn:

The Division of Solid Waste Management has completed its review of the transition plan for the referenced landfill submitted by the consultant, Municipal Engineering Services on behalf of the owner and operator, Alexander County.

Rule .1603(a)(4)(A) of the solid waste management rules codified at 15A NCAC 13B requires the owner and operator of an existing MSWLF unit to submit a transition plan application for continuing operation and closure of the existing MSWLF unit by April 9, 1994. Rule .1617(d) requires that the plan contain: an operation plan in accordance with Rule .1625, a closure and post-closure plan in accordance with Rule .1629, a water quality plan in accordance with .1623(b)(3), and a report that contains a schedule for closure of the existing MSWLF unit and, if necessary, submittal of an application for a new facility, a lateral expansion or permit renewal.

Rule .1603(d)(2) requires the Division to establish a review schedule for the transition plan applications which determines the adequacy of all the plans by October 9, 1996. The rule allows the Division to issue full or partial approvals and to determine the schedule for closure of the existing MSWLF unit based on its review of the complete transition plan application.

In accordance with Rule .1603(d)(2), the Division has completed its review of the submitted application as amended through May 1996, and hereby issues full approval of the transition plan for the referenced landfill. See the attached List of Approved Documents.

The approved transition plan shall be effective through December 1997, or until the permitted contours are reached. Rule .1625(b)(3)(C) requires that operation drawings illustrate annual phases of development which are consistent with the minimum and maximum closure slope requirements. In accordance with this rule and Rule .1627(c)(10)(A), the existing unlined MSWLF unit shall be operated in such a manner as to cease receiving solid waste on or before

Mr. Mashburn

January 1,1998, regardless of the approved final contours.

Have Municipal Engineering Services submit one complete transition plan (containing all of the List of Approved Documents) for the Solid Waste Section central files. One complete transition plan is being sent to Alexander County and one is being sent to the Solid Waste Section Mooresville Regional Office. If there are any questions or comments, please contact Susan Leistiko @ (919) 733-0692, extension 262.

Sincerely,

James C. Coffey, Head
Permitting Branch
Solid Waste Section
