Dear Ms. Jacqueline L. Sneed:

As you are aware, the North Carolina Superfund Section Pre-Regulatory Landfill Unit (Unit) has been conducting the remedial investigation for the landfill on your property. As part of those investigation activities, it is necessary to verify wetlands on your property. In order for the Unit to complete this environmental study and continue with remedial assessment activities, on behalf of the U.S. Army Corps of Engineers, we need to obtain Access Authorization. The U.S. Army Corps of Engineers requires the property owner’s consent to access the property through an access agreement signed by the property owner or the authorized agent for that property to conduct a jurisdictional determination for the wetlands and share the finding with the Unit.

Please sign the enclosed Access Authorization form and return it in seven days after receiving this letter
