**Inspection Participants:** Cindy Harris, Realtor, [cindharris10@gmail.com](mailto:cindharris10@gmail.com)

**Date of Inspection:** June 9, 2016

**Report Prepared By:** Heather Goldman, ESS

**Purpose of Inspection:** To determine compliance with applicable RCRA regulations and completion of clean-out of waste from building.

**Site Inspection Notes:** A meeting was conducted on March 17, 2016 with Ms. Cindy Harris. The owner of the building was in the process of preparing the building and property for sale. The property owner worked with a contractor to identify chemicals left in the building from previous tenants and conduct waste determinations for disposal of these materials. A shipment of hazardous waste was transported for disposal on January 28, 2016 by A&D Environmental Services to Dart Acquisitions, LLC (NCD986232221). A walk through of the facility was conducted on March 17, 2016 to inspect for remaining materials. Used lamps, CRTs, and chemical containers were identified stored onsite. Ten CRTs were sent to Iredell County Solid Waste Facility for recycling. Non-hazardous materials and universal wastes were transported by A&D Environmental Services on May 23, 2016 to A&D Environmental Services, Inc. in Archdale, NC 28263. 280 pounds of hazardous waste was transported for disposal by A&D Environmental Services, LLC (SCD987598331) on May 23, 2016 to Ecoflo, Inc. (NCD980842132) located in Greensboro, NC. Land disposal restrictions were available for review. The following hazardous waste streams were listed on the hazardous waste manifest:

Waste Aerosols Flammable		D001
Waste Flammable Liquid	Methanol	D001, D035, F003
Waste Oxidizing Liquid	Potassium Permanganate	D001
Waste Hydrogen Peroxide Aqueous Solutions		D001, D002
Waste Caustic Alkali Liquid	Sodium Hydroxide	D002
Waste Corrosive Liquids, Toxic	Mercury, Chromic Acid	D002, D007, D009, D011

Waste Corrosive Liquid, Acidic, Organic	Acetic Acid	D002
Waste Corrosive Liquid, Acidic Inorganic	Sulfuric Acid	D002

Clean-up activities of previous industrial activities inside the building were conducted and all removed residues and materials were managed as waste and characterized prior to disposal.

6/9/2016: Pictures of concrete depression inside the building where historically spilled chemicals were cleaned up.

The facility notified as Not a Generator of hazardous waste on 6/27/2016. The property owner is working to remove the remaining miscellaneous items from the building for future property sale. Based on the information provided by Ms. Harris and the walk-through of the building, there is no further actions required by the Hazardous Waste Section. If additional waste is identified, the facility will need to ensure a waste determination is conducted per 40 CFR 262.11 and notification is made with the Hazardous Waste Section if the facility will be operating as a SQG or LQG of hazardous waste.
