Inspection Date – September 8, 2016

Last Inspection Date – August 28, 2015

Status - TSD

Type of Inspection - CEI

Inspector(s) - Ernest Lawrence

Type of Business

NACCO Materials Handling Group was a manufacturer of forklift masts and cylinders. The facility ceased manufacturing operations and closed on June 30, 2004. The facility was recently purchased by Carolina Prime Pet which has 60 employees.

The facility is in RCRA post-closure for a 12,000-gallon underground storage tank that was excavated in 1988. The UST held wash waters and small amounts of parts cleaning and hydraulic fluids. The facility is located in a commercial setting. The closest residence is located on the north side of the plant approximately 300 feet from the facility property line. City water and sewer supply the facility and all adjoining property owners.

Other HW Units: (Applicable Regulations)

Description of Unit: The facility is in post-closure for the 12,000 gallon UST removed in 1988. Information provided by the facility indicated that the monitoring wells were sampled on schedule.

The facility has been given approval to conduct inspections of the cap and benchmarks on a semi-annual basis. The inspections must be documented. These inspections are being conducted at the time of the sampling events and are in compliance.

External Facility Condition: Good Condition.

Site Deficiencies:

In Compliance
