RE: Source Area Soil Vapor Extraction Work Plan (dated 10/7/2016)
Former Rental Towel Uniform/National Services Industries, Inc. Site
610 Woody Drive
Graham, Alamance County, North Carolina
NONCD0001655

Dear Ms. Ethier,

This acknowledges receipt on October 10, 2016 of the above referenced plan. Upon review, the North Carolina Inactive Hazardous Sites Branch (IHSB) hereby approves the plan with the following comments.

1. As stated in the report, indoor air samples will be collected periodically to evaluate indoor air concentrations inside the building. The IHSB suggests collecting a baseline indoor air sample prior to system start-up and additional samples according to the Monitoring Schedule (Section 5.3) of the Plan to further document system effectiveness.
2. Please note, should site source soils still exceed the IHSB's health based or protection of groundwater Preliminary Soil Remediation Goals after meeting the SVE Termination Criteria specified in Section 5.4 of the plan, land use restrictions and/or institutional controls will be warranted.

If you have any questions regarding this correspondence, please feel free to contact me at (919) 707-8210 or email me at: adam.ulishney@ncdenr.gov.

Sincerely,
