Re: Assessment Monitoring Workplan  
Westside C&D Facility, Permit #98-09

Dear Mr. Davis,

The Solid Waste Section (Section) has completed a review of the *2016 First Semiannual Water Quality Monitoring Results* report submitted on behalf of Wilson County by Babb and Associates, P.A. The results of the water quality monitoring report indicated the detection of 1,2-Dichloropropane at a concentration exceeding the standards established in 15A NCAC 02L .0202 (2L Standards) for the second consecutive monitoring event in the GMW-3 groundwater sample.

Based on two consecutive groundwater monitoring events in which an Appendix I constituent, 1,2-Dichloropropane, was reported at concentrations exceeding the 2L Standard in monitoring well GMW-3, an Assessment Monitoring Workplan should be submitted to the Section for review and approval in accordance with 15A NCAC 13B .0545(a)(3). The workplan should be submitted to the Section within 30 days of receiving this letter.

Please contact me at (919) 707-8288 or by e-mail at [ervin.lane@ncdenr.gov](mailto:ervin.lane@ncdenr.gov) if you have any questions or concerns regarding this letter. Thank you in advance for your anticipated cooperation with this matter.

Sincerely,

Ervin Lane  
Compliance Hydrogeologist  
Solid Waste Section
