RE: Limited Assessment for Site Prioritization Work Plan (dated October 12, 2016)  
Former Performance Fibers (NCD053488409)  
338 Pea Ridge Road  
New Hill, Chatham County, NC

Dear Mr. Ascher:

This acknowledges receipt on October 14, 2016 of the above referenced plan. Upon review, the North Carolina Inactive Hazardous Sites Branch (IHSB) hereby approves the plan with the following comments:

1. All groundwater samples shall be analyzed for both Volatile Organic Compounds (VOCs) via method 8260B and 1,4-Dioxane via of 8260 SIM.
2. All groundwater sampling shall conform with the following USEPA SESD document for groundwater sampling: <https://www.epa.gov/sites/production/files/2015-06/documents/Groundwater-Sampling.pdf>

If you have any questions, concerning this investigation request, please contact me at (919) 707-8210 or via email at [adam.ulishney@ncdenr.gov](mailto:adam.ulishney@ncdenr.gov).

Sincerely,

Adam Ulishney, Hydrogeologist  
Inactive Hazardous Sites Branch  
Superfund Section  
Division of Waste Management
