HAZARDOUS WASTE SECTION**

RCRA COMPLIANCE EVALUATION INSPECTION (CEI) REPORT

1. FACILITY INFORMATION:

Facility Name: Gary's Transmission Service
EPA ID Number: NCD981862899
Type of Facility: listed as a Small Quantity Generator (SQG) of hazardous waste operating as Conditionally Exempt Small Quantity Generator (CESQG)
Facility Location: 306 Sandhills Blvd, Aberdeen, NC 28315
Mailing Address: PO Box 1175, Aberdeen, NC 28315
County: Moore

2. FACILITY CONTACT: Mrs. Joann Crabtree
Telephone 910-944-1642; email gts2@windstream.net

3. DATE OF SITE VISIT: May 12, 2016

4. EVALUATION PARTICIPANTS:

Mr. Gary Crabtree, Owner – Gary's Transmission Service
Jenne S. Walker, Environmental Senior Specialist, NC Division of Waste Management, DEQ

5. PURPOSE OF SITE VISIT: An unannounced inspection was conducted to evaluate the subject facility's compliance with the hazardous waste management regulations (also known as the Resource Conservation & Recovery Act, or RCRA regulations) which are described at Title 40 of the Code of Federal Regulations (40 CFR), Parts 260-262, 264-265, 268, 273, 279 and 15A NCAC 13A.

6. FACILITY DESCRIPTION:

Gary's Transmission Service provides automotive transmission repairs and maintenance. The facility is listed with DWM as a Small Quantity Generator (SQG) but appeared to be operating as a Conditionally Exempt Small Quantity generator at the time of the inspection.

General Information:

- a. Operator of facility: Gary's Transmission Service
- b. Owner: James Gary Crabtree, PO Box 1175, Aberdeen, NC 28135
- c. Number of employees: ~ 4
- d. Water Supply & Sanitary Sewer: municipal, provided by Town of Aberdeen
- e. Groundwater Monitoring wells on-site: none
- f. Distance to closest residence: > ½ mile

7. WASTE STREAMS:

Hazardous waste has been generated in the past as spent parts washer fluid.

Hazardous Waste: Waste combustible liquid (petroleum naphtha) – D039

Other waste: Used oil

8. AREAS OF REVIEW:

An initial interview was conducted with Mr. Gary Crabtree to gather operational information about the facility. Mr. Crabtree then provided a tour of the shop which focused on the used oil storage area and parts washers.

PHYSICAL INSPECTION/FACILITY WALK-THROUGH

No hazardous waste was stored or accumulating on-site at the time of the inspection and the facility appeared to be operating as a Conditionally Exempt Small Quantity Generator. Four parts washers that contain non-flammable solvent are utilized. The units are maintained by Safety Kleen Systems Inc. and the last shipment of spent solvent occurred on February 17, 2016.

Emergency Preparedness - The facility is equipped with fire extinguishers throughout and spill clean-up supplies were available. Staff carry cell phones and a land line phone is available in the office.

Used Oil - Used oil is accumulated in a tank marked with the words ‘used oil’ and it is burned in an on-site heater during cool weather to provide heat to the shop/garage.

RECORDS REVIEW

Manifests and Land Disposal Restriction (LDR) forms: Manifests and LDRs were in order and available for review. *It was noted that the spent solvent generated from the parts washers has been manifested as D039 hazardous waste but the facility does not utilize tetrachloroethylene. Therefore, it is strongly recommended that this waste stream profile be updated.*

The facility utilizes the following waste management vendors:

Transporter: Safety-Kleen Systems, Inc. – TXR000081205

TSD: Safety-Kleen Systems, Inc. (Archdale, NC) – NCD077840148

9. RECOMMENDATIONS:

- **It is strongly recommended that the spent solvent waste stream profile be updated. Please contact Safety-Kleen directly to update the waste profile.**
- **Please contact me in the future to provide the results of the updated waste profile.**

10. CONCLUSION:

The cooperation and assistance provided by Mr. and Mrs. Crabtree as well as facility staff was greatly appreciated. At the time of the inspection, the facility appeared to be operating as a Conditionally Exempt Small Quantity Generator and no deficiencies were observed.

If you have any questions about this report or maintaining compliance with the (RCRA) hazardous waste management regulations, please contact me at jenne.walker@ncdenr.gov or by telephone at 919-707-8224.

Jenne S. Walker
