Re: Appendix I Inorganic Constituent Exceedances  
Ashe County Landfill  
Ashe County  
Solid Waste Permit Number 0501  
DIN 26985

Dear Mr. Hurley:

The Solid Waste Section (Section) has completed a review of the *Extension Request for Alternate Source Demonstration-Metals* letter dated October 31, 2016 (DIN 26979) and submitted on behalf of Ashe County by Municipal Engineering Services Co., P.A. for the Ashe County Subtitle D MSW Landfill, Solid Waste Permit Number 0501. The letter was submitted in response to correspondence from the Section dated August 8, 2016 (DIN 26544) requiring Ashe County to address inorganic constituent exceedances.

In response to the inorganic groundwater exceedances at the landfill and in accordance with 15A NCAC 13B .1633, Ashe County will be conducting an Alternate Source Demonstration (ASD). In addition, Ashe County is requesting an extension to submit the ASD by February 6, 2017.

As a result, the extension request is approved as described. If you have any questions or concerns regarding this letter, please feel free to contact me by email at [erwin.lane@ncdenr.gov](mailto:erwin.lane@ncdenr.gov) or by phone at 919.707.8288. Thank you for your cooperation with this matter.

Sincerely,

Ervin Lane  
Compliance Hydrogeologist  
Solid Waste Section, Division of Waste Management
