Re: Planters Warehouse  
1003 Pireway Rd.  
Tabor City, Columbus Co.  
NONCD0002819

Dear Mr. Cox:

This letter is in response to your telephone call to John Walch on April 15. Based on my telephone conversation with you on March 19, 2009, it is my understanding that remedial action to address the nitrates and ammonia at the site has been ongoing. The Branch has not received any information pertaining to this site since October 31, 2008. At that time, ammonia levels onsite were three to four orders of magnitude higher than the levels detected in the background monitoring wells. The Branch cannot make a determination on any additional actions that may be needed at the site without the most current data. The Branch will gladly review any additional information submitted for this site.

If you believe that all areas of contamination have been remediated, the Branch can review this case to see if it is eligible for "No Further Action" status. In accordance with N.C.G.S. 130A-310.7(c), remediating parties are required to pay a fee to the Division when requesting a "No Further Action" review. Please remit a check, payable to the NC Division of Waste Management, in the amount of \$500.00 and have your environmental consultant complete the enclosed certification.

Please submit additional information to me at the following address:

NC Division of Waste Management  
Inactive Hazardous Sites Branch  
127 Cardinal Dr. Ext.  
Wilmington, NC 28405

I have enclosed all previous correspondence generated by the Branch for your reference. If you have any questions, please call me at (910) 796-7215. Thank you for your cooperation.

Sincerely,

Genevieve M. Henderson, P.G.  
Hydrogeologist  
Inactive Hazardous Sites Branch  
Superfund Section  
Division of Waste Management
