**Subject:** RE: NC Groundwater Standards

Thanks for the information. I sure wish there was some way that we could obtain a no further action letter. The adjoining farm property is still under cultivation and it is our intent to develop the road frontage without ever involving the use of a well. Please let me know if you have any suggestions. Again, thanks for providing me the citations.

Dennis,

The direct link for the NC 2L Groundwater Standards is:

[http://portal.ncdenr.org/c/document\\_library/get\\_file?uuid=90e20026-1d67-45e0-90cc-a212707e79a3&groupId=38364](http://portal.ncdenr.org/c/document_library/get_file?uuid=90e20026-1d67-45e0-90cc-a212707e79a3&groupId=38364).

You can also get to it from our website: <http://portal.ncdenr.org/web/wm/sf/ihs/home>. Click the Statute & Rules Link, then the 15A NCAC 2L - Groundwater Quality Standards link, then the 15A NCAC 02L Groundwater Rules (January 1, 2010) link. Scroll to the end and ammonia will be listed in the table on the last two pages.

Let me know if you have any questions.
