Dear Mr. Paul:

Submit a task work plan and cost estimate to perform remedial activity phase activities at the above referenced site. Conduct these activities in accordance with State Contract No. N10003S.

Investigation Goals: Survey site features such as waste disposal area, topography, property lines, and structures. Prepare topographic map showing site features and the footprint of the waste disposal area.

Scope of work for Task Order 805RA-4:

- Prepare a work plan in accordance with S&ME's approved standard operating procedures dated July 2010, and include a schedule of daily activities.
- Submit an itemized cost estimate that identifies personnel and materials involved.
- Reference the most recent Guidelines for Addressing Pre-Regulatory Landfills and Dumps for details regarding procedures.
- Minimize the clearing of vegetation to enable access to proposed surveying points. Using hand tools for clearing is the preferred method, otherwise an explanation must be provided for use of heavy equipment.

Surveying

- Complete a boundary survey by a North Carolina Licensed Professional Land Surveyor for waste disposal areas 1-3 and the affected properties as needed. Complete a topographic survey.

Provide a topographic map showing site features and the footprint of the waste disposal area.

Provide the cost proposal to perform the surveying activities no later than May 9, 2016. A task authorization to begin work will be issued based on the approved proposal and schedule. Do not proceed with tasks prior to receiving this authorization. If you have any questions or concerns, please call me at (919)707-8340.

Sincerely,
