Re: Water Quality Data From the Closed Alleghany County Municipal Solid Waste Landfill (Permit #03-02)

Mr. Adams,

The most recent water quality sampling results, taken June 29, 2001, from the closed Alleghany County municipal solid waste landfill indicates the presence of several volatile organic compounds in exceedance of the N.C. groundwater standards. Per our conversation, the N.C. Division of Waste Management, Solid Waste Section recommends evaluating the next round of data, for confirmation purposes, before making a determination on what action, if any, should be taken. Please contact the Section after you have received and evaluated the next round of data.

If you have any questions, please contact me at 919-733-0692, extension 261.

Sincerely,

A handwritten signature in black ink that reads "Mark Poindexter". The signature is written in a cursive style.

Have we yet received the latest GW Report yet? If not, give him a call & he will have it sent. If so, he requested a letter stating that the SWS recommended waiting until a "confirmation" event (next regularly scheduled episode) could be evaluated before taking further action.
