Subject: Permit to Operate, Approval to Commence Operations in Subcell 1C
Permit No. 1910-STRUC-2015, Brickhaven No. 2
Chatham County, DIN 26007

Dear Mr. Price:

On April 19, 2016 the Division of Waste Management, Solid Waste Section (Section) received Charah, Inc.'s construction quality assurance (CQA) documentation for Subcell 1C of Permit No. 1910-STRUC-2015, the Brickhaven No.2 Mine Tract "A" Mine Structural Fill (Facility), entitled;

Construction Certification Report, Brickhaven No.2 Mine Tract "A" Structural Fill – Cell 1, Subcell 1C, Permit 1910-STRUCT-2015, Charah, Inc., Moncure, North Carolina, April 19, 2016. Prepared for Charah. Prepared by HDR Engineering. April 2016. DIN 25984.

The Section has reviewed the documentation submitted on behalf of Charah, Inc. and hereby approves the commencement of structural fill operations in Subcell 1C at the Facility. Please note the following requirements for future construction and operation of the Facility;

- Daily field reports (pages 403-416) indicate that additional effort is needed in removing sticks and rocks during clay placement.
- Document ID Number 25984 is considered an approved documents of the Facility's permit and will be treated as such. The next time the Facility's permit is either amended or modified these documents will be added to the list of approved documents within the permit.
- Charah, Inc. must submit construction quality assurance documentation, for all future construction and receive approval from the Section prior to placing those areas into operation.

Should you have any questions regarding this matter you may contact Shannon Aufman at (919) 707-8238 shannon.aufman@ncdenr.gov or Elizabeth Werner at (919) 707-8253 elizabeth.werner@ncdenr.gov

Sincerely,

Edward F. Mussler, III, P.E., Supervisor
