Dear Mr. Blake:

North Carolina General Statute 130A-295.01(e) requires that permit holders for a commercial hazardous waste facility shall annually publish a notice in a newspaper of general circulation in the community where the facility is located. The notice must include the location of the facility, a description of the facility, the hazardous and non-hazardous wastes that are received and processed at the facility and a description of the emergency response plan for the facility. The notice shall be in a form and manner approved by the Hazardous Waste Section. In addition, the facility must provide documentation to demonstrate that this requirement has been met. On the reverse of this letter is an excerpt from the General Statute.

Safety-Kleen must publish the notice no later than May 20th. Safety-Kleen must provide the proposed text and the name of the newspaper to the Hazardous Waste Section for review no later than April 20, 2016.

If you have any questions concerning this requirement you should contact me at 919-707-8214 or kathleen.lawson@ncdenr.gov.

Sincerely

Kathleen Z. Lawson, Environmental Engineer
