Re: Quarterly Progress Report  
January 2013 through March 2013  
DuPont-Kentec Site  
4610 Braxton Road  
Grifton, North Carolina  
Site ID No. NONCD 002818  
URS Project No. 18985580

Dear Mr. Aufman:

This quarterly progress report has been prepared by URS Corporation–North Carolina (URS), to document progress at the DuPont-Kentec site located at 4610 Braxton Road (the site) in Grifton, North Carolina during the period of October 2012 through December 2012. This quarterly report meets the requirements set forth in Section III E of the consent agreement entered into by DuPont Corporate Remediation Group and Unifi Kinston, LLC on June 4, 2010. During the period of January 2013 through March 2013, the following activities were completed or are currently ongoing:

- On June 4, 2010, DuPont Corporate Remediation Group (DuPont) and Unifi Kinston, LLC (Unifi) entered into an Administrative Agreement (AA) for Registered Environmental Consultant-Directed Assessment and Remedial Action pursuant to N.C.G.S. 130A-310.9(c) and 15A NCAC 13C .0300 for the site. As documented in the AA, within thirty-six (36) months after the execution of the AA, the remedial investigation at the site must be completed including both the submittal of a Remedial Investigation Completion report and Remedial Investigation Completion statement, both certified in accordance with .0306(b) by the Registered Environmental Consultant (URS) and the Remediator (DuPont and Unifi).
- A draft Remedial Investigation Completion (RIC) report has been prepared to document remedial investigation activities completed to date in respect to the remedial investigation requirements set forth in Section III B of the consent agreement entered into by DuPont Corporate Remediation Group and Unifi Kinston, LLC on June 4, 2010. Following a review of the draft RIC report by URS, DuPont and Unifi, it was determined that additional investigation is still warranted to supplement limited soil quality data generated following soil excavation activities completed at the site pre 1991. Furthermore, updated groundwater use and groundwater quality information is warranted

on adjacent properties owned by litigants formerly engaged in lawsuits against DuPont in the 1990's.

- Due to the limited time remaining to complete the remedial investigation pursuant to .0306(b), URS, DuPont and Unifi will temporarily remove the site from the REC Program by providing written notice to the Division electing to discontinue work under the existing AA. A formal written notice will be submitted to the Division within the next quarterly reporting period.
- Pending the completion of the additional assessment activities to the satisfaction of URS, DuPont and Unifi, the site will enter into a new AA with the Division with the understanding that the allotted time to complete the REC Program deadlines will continue from the dissolution of the initial AA.

-oOo-

The required certifications by the remediating parties and the REC are attached. Please call me at (704)522-0330 with any questions.

Sincerely,

**URS CORPORATION – NORTH CAROLINA**
