**Subject:** RAP Public Notice for Umicore

Dave,

Janet did not quite finish the public notice before she left, but provided me the details and the mailing list has just been updated. Accordingly, I am forwarding the information to you so the public notice can begin. We also included the notice procedures below in the REC Program Guidelines this year.

Janet has received the proposed Remedial Action Plan (RAP) for a portion of the above referenced site. Pursuant to 15A NCAC 13C .0306(j) of the Registered Environmental Consultant (REC) Rules, the REC must provide public notice of the proposed RAP before it can be approved by the Registered Site Manager (RSM). I have attached the text for the public notice and a list of recipients. Please enter the date, corresponding to 35 days after the mailing date for the notice, in the blank in order to designate the conclusion of the public notice period. A copy of the notice must be sent by certified mail to each of the recipients that are listed as well as any additional parties that have expressed an interest in the site to the REC and/or remediator. You may send a copy to Janet electronically. Please e-mail her electronic copies of the certified mail receipt cards (green cards) to document that all interested parties have been notified.

After the public notice period has ended, Janet will e-mail you any written comments that the Branch received for your review and response. You will also need to address any verbal comments that you received from the public regarding the proposed RAP. After all public comments are satisfactorily addressed, Janet will notify you that the RAP may be approved and the "Proposed Remedial Action Plan Completion Certification" form (Form WPC-III downloaded from the REC website) may be completed and sent to the Branch.

Please "reply all" to this e-mail so that we know you received these instructions. If you have any questions during the process, please contact us.

Thanks,  
Kim

## NOTICE OF REMEDIAL ACTION PLAN

Umicore CSM NA  
Maxton, Scotland County, North Carolina  
Site ID No. NONCD0002833

In accordance with N.C.G.S. 130A-310.9(b) - 310.9(c), Duncklee & Dunham Environmental Consulting & Engineering (Duncklee & Dunham) is soliciting public comment on a *Proposed Remedial Action Plan* for cleanup of contaminated media at a portion of the Umicore CSM NA site (Site) in Maxton, Scotland County, North Carolina. Duncklee & Dunham is a State-approved Registered Environmental Consultant (REC) for the Site. The *Proposed Remedial Action Plan* has been prepared in accordance with the REC program rules (15A NCAC 13C .0300), and contains a description of the proposed remedial alternative that representatives of the REC intend to implement to address environmental contamination (e.g., contaminated soil, groundwater, surface water, etc.) at the Site. Other remedial alternatives that were considered are also discussed in the *Proposed Remedial Action Plan*. The Division of Waste Management (DWM) is authorized to implement the Inactive Hazardous Site Response Act, and the REC Program is an approved, privatized program under that authority. The remediator has entered into an Administrative Agreement with the DWM to implement a remedial action under the REC Program.

To review the *Proposed Remedial Action Plan*, contact:
