INACTIVE HAZARDOUS SITES BRANCH**

TELEPHONE LOG

DATE: 03/06/13, 1:41 p.m.

SHEET: 1 OF 1

Call: Placed _____, Received X , Returned _____

PROJECT: Wallace Airport, NONCD0002913	COUNTY: Pender
CONVERSATION WITH: Judy Weseman	TELEPHONE: 919-782-0495
AFFILIATION: WK Dickson, consultant for the Town of Wallace	
DISCUSSION:	
<p>Judy said that she working on putting together the questionnaire for the Town. She wondered why the Town had received my letter when another entity had taken responsibility for the contamination coming from the USTs. I explained that the TCE contamination detected in the supply well was unlikely to be originating from the USTs since they likely contained fuel. The Town got the letter because they are the property owners. The letter was not saying that they were the responsible party, just that the property was a site. She asked if they were supposed to answer the questionnaire using the present condition of the site or what they know will be the condition of the site in the future. There are residences nearby that are on wells, but the Town is buying up those properties and they will be shut down. I said that they should answer the questionnaire using the current conditions, but they could add a sheet that explained the future plans. She said okay.</p>
