Re: *Assessment Monitoring Report*
Appendix II Monitoring Request
Old Salisbury Road (OSR) C&D Landfill
Forsyth County
Solid Waste Permit Number 3412
DIN 26033

Dear Ms. McHargue:

The Solid Waste Section has completed a review of the *Assessment Monitoring Report* dated January 2016 (DIN 26032) and submitted on behalf of Winston-Salem City/County Utilities Commission for the Old Salisbury Road C&D Landfill, Solid Waste Permit Number 3412. Assessment monitoring was initiated at the landfill in 2012 (DINs 15819 and 15916), and a monitoring request was approved in February 2014 (DINs 20378, 20550, and 20581).

Within the *Assessment Monitoring Report*, the Winston-Salem City/County Utilities Commission is requesting the following: to discontinue monitoring for Appendix II of 40 CFR Part 258 constituents that have not been detected since November 2012; to add all Appendix II of 40 CFR Part 258 constituents that were detected above the Solid Waste Section Limit (SWSL) since November 2012; and to add all Appendix II of 40 CFR Part 258 volatile organic compounds that have been detected since November 2013.

As a result, the monitoring requests within the *Assessment Monitoring Report* are approved as described at this time with one exception. Because the contaminant plume has not been completely delineated and Appendix II of 40 CFR Part 258 constituents have been detected within the groundwater monitoring wells since 2012, please continue to conduct the full suite of Appendix II of 40 CFR Part 258 constituents at this time. If you have any questions regarding this letter, please feel free to contact me at 828.296.4706 or by email at jaclynne.drummond@ncdenr.gov. Thank you for your continued cooperation with this matter.

Sincerely,

Jaclynne Drummond
