Re: Water Filtration System  
221 Busick Road, Reidsville, NC 27320

Dear Ms. Walker:

Due to contamination detected in your drinking water supply well at concentrations exceeding safe levels for human consumption and because public water is not available in your area or is not available at a reasonable cost, the Inactive Hazardous Sites Branch ("Branch") of the North Carolina Division of Waste Management's Superfund Section is offering to pay for the installation of a water filtration system at your residence and pay for the first year (12 months) of maintenance costs of the filtration system. The water filtration system would be designed to remove contaminants detected in your drinking water supply well. In order to receive this offer, you must agree to assume responsibility for all future maintenance costs associated with the water filtration system after the first year and also agree to sign a "Notice of Inactive Hazardous Substance or Waste Disposal Site" ("Notice") for your property in the Rockingham County Register of Deeds' office. The purpose of the Notice is to notify any prospective purchaser of the property of the groundwater contamination in your drinking water supply well. The Branch will prepare and pay for the preparation and recording of the Notice. You will be required to sign the Notice before the water filtration system will be installed. Currently, estimated annual maintenance costs for a water filtration system range from \$1,300.00 - \$1,600.00. Please note that actual annual maintenance costs can vary depending on the type and concentration of contaminants in your water.

This offer shall expire at the close of business on the 30<sup>th</sup> day following your receipt of this letter. If you agree to the terms of this offer, please complete the attached form and return it to the Branch. If you have any questions, concerning this issue, please contact me at (910) 433-3345.

Sincerely,

**P. Sean Boyles, L.G.**  
Inactive Hazardous Sites Branch

**Water Filtration System Agreement**

*Dorothy Easter*  
221 Busick Road, Reidsville, NC 27320

I/we hereby agree to assume responsibility for all future testing, maintenance and costs associated with the water filtration system installed for my/our drinking water supply well by contractors of the Inactive Hazardous Sites Branch (Branch) of the NC Division of Waste Management's Superfund Section after any warranty period(s) expire. In addition, I/we agree to sign a *Notice of Inactive Hazardous Substance or Waste Disposal Site* (Notice) before installation of the water filtration system will occur. I/we understand that this Notice will be recorded in the Rockingham County Register of Deeds' office to show any prospective purchasers of the presence of contamination in the groundwater at the property referenced above, that I/we currently own. The Branch will be responsible for costs associated with filter installation, filter maintenance during the first year (12 months), Notice preparation and recordation.

I/we recognize that failure to properly maintain the water filtration system for my/our drinking water supply well may cause the system to not operate as designed and may cause anyone using the water to be exposed to contamination.
