---

State law requires reporting by private solid waste management facilities. G.S. 130A-309.09D requires that private facilities report by August 1 of 1992 on the amount of waste landfilled for the previous year beginning July 1 and ending June 30. The report must indicate the county of origin of the waste. The report is to be made to the state and a copy of the report is to be sent to the county manager in which the landfill is located and to the county manager of each county from which waste was received.

If waste was received from out-of-state, please indicate the State of origin.

The completed form should be returned to:
