Mr. James E. Patterson
North Carolina Department NRCD
Solid Waste Management Section
59 Woodfin Place
Asheville, North Carolina 28801

Dear Mr. Patterson:

Attached is the North Carolina Sanitary Landfill Annual report. We only have an industrial landfill and use "Waste Management" of Asheville for garbage removal. We plan to close out the smaller North landfill this year after our asbestos removal project is completed. No asbestos goes into or will go into the main plant landfill (East landfill).

Sincerely,

Edward K. Hallowell
