Solid Waste Section

January 09, 2015

Ms. Amanda Bader, P.E.  
County Engineer  
Harnett County Solid Waste Department  
P. O. Box 2773  
Lillington, NC 27546

Subject:

Dunn-Erwin Closed Sanitary Landfill  
Harnett County, North Carolina,  
Permit No. 4302-MSWLF-1988, Document ID No. (Doc ID) 22597

Dear Ms. Bader:

On January 05, 2015 the Division of Waste Management (DWM), Solid Waste Section (SWS) received a written request (DIN 22592), which was prepared on behalf of Harnett County (the County) by Smith Gardner, Inc. (S+G) According to the request the County proposes to stockpile earthen material within the limits of one of the closed sanitary landfill units on the southern portion of the landfill property. The stockpile earthen material will be used for improvements of the final cover system of the closed sanitary landfill units.

The proposed activities will enable the County to conduct the post-closure care at a closed landfill and hereby grants the County the authorization to stockpile earthen material for conducting the improvement of the final soil cover system. The County must implement all necessary best management practices (BMPs) according to the approved Erosion and Sediment Control Plan for the landfill units. Please place this approval document to the operating record at the landfill facility. If you have any questions or requests for further clarification for this authorization, please contact me at (919) 707-8251 or [ming.chao@ncdenr.gov](mailto:ming.chao@ncdenr.gov).

Sincerely,

Ming-Tai Chao, P.E.  
Environmental Engineer  
Division of Waste Management, NCDENR
