Re: Authorization to Proceed – Task Order 687DP-1
Old Raleigh LF #4
Raleigh, Wake County
ID # NONCD0000687

Dear Mr. Forbes:

The Division of Waste Management, Superfund Section, Pre-Regulatory Landfill Unit has received and reviewed the March 2, 2016 work plan and cost proposal for the remedial investigation - delineation phase activities associated with Task Order 687DP-1&2. Based on that review, the work plan and the cost proposal in the amount of \$22,616.60 is approved for 687DP-1. This letter serves as notification of that approval and as authorization to proceed with activities associated with that work plan.

While the total expense on the invoice cannot exceed the amount approved, individual task components within this task approval may vary. Any increase in cost to this scope of work must be approved prior to implementation. A task order addendum must be requested to cover an additional scope of work or unforeseen site circumstances. Notify me immediately and request additional funds to cover eligible and reasonable costs. Cost of additional work conducted without approval will be ineligible for payment.

Please notify at least **three weeks prior notice** for scheduled field activities so that the property owners can be notified.

Upon receipt of the analytical results, perform a QA/QC check of laboratory analytical report and after any required corrections are made, submit the QA/QC check documentation and analytical report for review. After the analytical report is approved and all field work associated with the task order is complete, you will receive a task order completion letter for invoicing as well as authorization to proceed with the report compilation. If you have any questions, please contact me at (919)707-8227.

Sincerely,

Analee Thornburg, Hydrogeologist
Division of Waste Management, NCDENR
