Dear Mr. Bradley:

The Division of Waste Management, Superfund Section, Pre-Regulatory Landfill Unit has received and reviewed the **January 28, 2013 work plan & cost proposal** for the remedial investigation – hexavalent chromium studies activities associated with Task Order **808DP-7**. Based on that review, the *work plan & the cost proposal* in the amount of **\$12,236.98** are approved. This letter serves as notification of that approval and as authorization to proceed with activities associated with that work plan.

While the total expense on the invoice cannot exceed the amount approved, individual task components within this task approval may vary. Any increase in cost to this scope of work must be approved prior to implementation. A task order addendum must be requested to cover an additional scope of work or unforeseen site circumstances. Notify me immediately and request additional funds to cover eligible and reasonable costs. Cost of additional work conducted without approval will be ineligible for payment.

Please notify me of the date that field activities are scheduled by Feb. 22, 2013 so that the property owners can be notified.

If you have any question, please contact me at (919) 707-8347, or [zi-qiang.chen@ncdenr.gov](mailto:zi-qiang.chen@ncdenr.gov). Thanks!

Sincerely,

Z. Chen, PhD, Environmental Engineer
