Dear Ms. Ness:

The Division of Waste Management, Superfund Section, Pre-Regulatory Landfill Unit has reviewed the URS **March 26, 2013** *work plan & cost proposal* for Remedial Action Phase Task Order **782RA-2C** for sampling and analysis of Pb-contaminated soil/waste in Central Park LDFL. Based on that review, the *work plan & the cost proposal* in the amount of **\$20,814.99** are approved. This letter serves as notification of the approval and as authorization to proceed with activities associated with that work plan.

While the total expense on the invoice cannot exceed the amount approved, individual task components within this task approval may vary. Any increase in cost to this scope of work must be approved prior to implementation. A task order addendum must be requested to cover an additional scope of work or unforeseen site circumstances. Notify me immediately and request additional funds to cover eligible and reasonable costs. Cost of additional work conducted without approval will be ineligible for payment.

If you have any question, please contact me at (919) 707-8347 or email me at zi-qiang.chen@ncdenr.gov.

Sincerely,

Z. Chen, PhD, Environmental Engineer
