ADDITIONAL COMMENTS

1. Field 2 needs cut soon. Weed control is needed to maintain the fescue cropstand, particularly towards the back of Field 2. Field 1 is inactive.
2. No sign of recent or heavy application. No odors noted.
3. No sign of land application outside the permitted boundaries. It appears that the approved setbacks are being met. Field markers are adequate at this time.
4. The required signs are posted and the access road is adequate.
