**Re: Engineered Controls International, Elon, Alamance County
Administrative Agreement, Docket No. 13-SF-367**

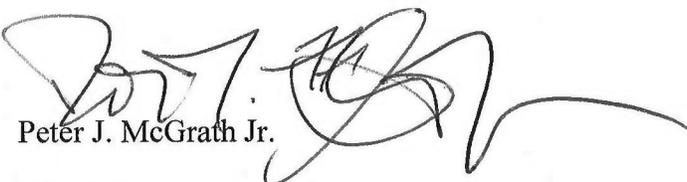

Dear Mr. Caulk:

As you know, this firm represents Engineered Controls International, LLC, the Remediator with respect to the referenced Administrative Agreement. The Administrative Agreement requires submission of quarterly letter status reports on or before the 15th of January of each year, until such time as the REC has submitted certified completion statements for all contaminated media at that site. I write today to inform you that a new owner acquired the Remediator at the end of 2013 and is in the process of determining whether to retain a new REC for the site. Once that decision has been made, either the current REC or the new REC will submit the required quarterly letter report. We expect that decision will be made, and the quarterly report submitted, by the end of January.

Please do not hesitate to contact me if you have any questions.

Very truly yours,

Moore & Van Allen PLLC
