*This map is a tool to assist you in viewing DSCA program facility sites and dry-cleaning contaminant plumes. Regulatory decisions are not bound by this map.*

#### Legend

DSCA Facility Site		Dry-cleaning Contaminant Plume	
	Status: Interim Action or Remediation		Dry-cleaning Contaminant Groundwater Plume
	Status: Monitoring, Assessment, Investigation, Certified or On Hold		Dry-cleaning Contaminant Soil Plume
	Status: No Further Action		Sample Location
	Status: Emergency		<a href="#">Download DSCA Sample Site KML</a>
	Status: Closure		<a href="#">Download DSCA Site KML</a>
	Status: Suspected dry-cleaning site not in the DSCA Program		<a href="#">Download DSCA RBSL Plume KML</a>

Status: Determined to be ineligible because contamination is not above regulatory threshold, contamination is not dry-cleaning solvent or the site is not the source of contamination.

Site Type: Potential drycleaner locations geocoded from the Department of Labor boiler inspection list
