**SOLID WASTE INCINERATION FACILITY
 ANNUAL REPORT
 FOR THE PERIOD OF JULY 1, 1992 -JUNE 30,1993**

Solid waste disposal facilities are a vital part of the North Carolina infrastructure to manage solid waste. This report gathers information about solid waste facilities in the state.

Separate surveys have been sent to all counties and cities to gather information about other components of solid waste management programs in North Carolina.

Thank you for your assistance in completing this report. The information gathered as a part of this process should be of value to local governments and the state in assessing waste management programs and needs in planning for the future.

If you have any questions or concerns regarding this report please contact the Solid Waste Section at 919-733-0692 or a waste management specialist. Completed forms should be returned to the waste management specialist for your area. Refer to the attached map for names and addresses. A copy of this report should be sent to the county manager of each county served by this facility.

We would appreciate your comments about this report or other matters regarding solid waste management in North Carolina.
Thank you for your time.

I suggest this report be submitted for calendar year since most other State and Federal reports (SARA, Hazardous Waste Report, etc.) are for the calendar year. It is confusing to report fiscal year on some reports and calendar year on others. It would be much easier to assemble data for all reports at the same time.

COMMENT:

This facility was shut down due to economic reasons. The cost to install new equipment, required by more stringent air regulations, could not be justified. The waste formerly beneficially used at this facility is now being sent to the FORSYTH COUNTY LANDFILL.

Dear Brent.

Attached are the solid waste management facility annual reports for our two facilities. Please note that our Waste to Energy Boiler shut down operations in October 1992.

If you have any questions or need additional information, call me at 741-1724.
