**SANITARY LANDFILL  
 ANNUAL REPORT**

FOR THE PERIOD OF JULY 1, 1992-JUNE 30, 1993

Solid waste disposal facilities are a vital part of the North Carolina infrastructure to manage solid waste. This report gathers information about solid waste facilities in the State.

Separate surveys have been sent to all counties and cities to gather information about other components of solid waste management programs in North Carolina.

Thank you for your assistance in completing this report. The information gathered as a part of this process should be of value to local governments and the State in assessing waste management programs and future solid waste planning.

If you have any questions or concerns regarding this report please contact the Solid Waste Section at 919-733-0692 or a Waste Management Specialist. Completed forms must be returned to the Waste Management Specialist for your area. Refer to the attached map for names and addresses. Dear Mr. Hetzell:

Re: Sanitary Landfill Annual Report, 1993  
Collins & Aikman Sanitary Landfill, Permit 56-03  
McDowell County, North Carolina

Collins & Aikman owns a landfill in McDowell County which is used for the disposal of waste automotive carpet. This waste is composed of trimmings from carpet molding operations at our Old Fort plant. There are no other materials or waste disposed at this landfill site. All of the waste is transported to the landfill in baled form. The bales weigh an average of 1,036 pounds each. Attached is the Sanitary Landfill Annual Report which shows a total of 6,439 tons disposed in our landfill during the period 07/01/92 through 06/30/93.

Collins & Aikman has been active in waste minimization, waste reclamation, and is currently participating in an incineration trial. These efforts and future business cycles will affect the life of our landfill. We expect that the present landfill site will meet our needs for the foreseeable future.

Should you have any questions or need additional information, please give me a call at the above number.

Sincerely,

COLLINS & AIKMAN CORPORATION

David N. Little  
Corporate Engineer
