Subject: 2nd Quarter 2014 Progress Update
Engineered Controls International, LLC (ECI)
100 Rego Drive
Elon, Alamance County, North Carolina
Docket No. 13-SF-367

Dear Mr. Aufman:

On behalf of ECI, ERM NC, Inc. (ERM) has prepared this quarterly status update of activities for the 2nd quarter of 2014 at the ECI – Elon site. During the 2nd quarter of 2014, ERM submitted the Phase I Remedial Investigation (RI) Work Plan and completed the assessments outlined in the Work Plan. The assessments included:

- A direct push technology (DPT) soil investigation to delineate the horizontal extent of the soil source area, collect SPLP samples to evaluate a site-specific soil to groundwater leaching threshold, and complete outstanding sampling requirements of the RI;
- Installation of additional groundwater monitoring points to refine the groundwater-VOC plume characterization and complete outstanding requirements of the RI;
- A sensitive receptor survey;
- Slug testing to characterize aquifer parameters; and
- A comprehensive groundwater sampling event.

ERM is in the process of developing the Phase I RI Report, which will summarize the results of the assessments conducted at the Site.

Progress is proceeding in a manner to achieve the mandatory work phase completion deadlines set out in 15A NCAC 13C .0302(h). Certification statements for the Remediating Party and RSM are attached.

If you have any questions regarding this project, please contact me at (919) 233-4501.

Sincerely,

A handwritten signature in black ink, appearing to read "Lane Dorman". The signature is fluid and cursive, with a large initial "L" and "D".

Lane Dorman, P.G.
Project Manager
