Dear Ms. Macdonald:

In accordance with Section III.E of the executed Registered Environmental Consultant (REC) Administrative Agreement for the Goldsboro Milling Company, Mill #1 Property, Terracon Consultants, Inc. (Terracon) appreciates the opportunity to submit this January 2015 Quarterly Summary Report to the REC Program on behalf of Goldsboro Milling Company.

In accordance with the Work Plan for Remedial Investigation, dated September 24, 2013, Terracon has installed additional monitoring wells at the site. The laboratory analytical results indicate additional assessment to the west and south. Chlorinated compounds were also detected in the soils near the feed sampling gallow platform. During the last quarter of 2014, the REC Program conducted an audit of the project requiring clarification of certain information provided in the Work Plan. Additional assessment is planned for the first quarter of 2015 to further delineate the contaminant plume in the groundwater and further evaluate the soils at the sampling gallow platform as a potential source area. **Terracon's work on this project is progressing on a schedule to achieve the mandatory work phase completion deadlines established in 15A NCAC 13C .0302(h).**

Sincerely,
Terracon Consultants, Inc.

Christopher L. Corbitt, PG, RSM
Senior Project Manager
