**Re: October 2015 Quarterly Summary Report**  
Goldsboro Milling Company, Mill #1 Property  
938 Millers Chapel Road  
Goldsboro, Wayne County, North Carolina  
Site ID: NONCD0002891

Dear Ms. Macdonald:

In accordance with Section III.E of the executed Registered Environmental Consultant (REC) Administrative Agreement for the Goldsboro Milling Company, Mill #1 Property, Terracon Consultants, Inc. (Terracon) appreciates the opportunity to submit this October 2015 Quarterly Summary Report to the REC Program on behalf of Goldsboro Milling Company.

In accordance with the Work Plan for Remedial Investigation, dated September 24, 2013 and in response to chlorinated compounds detected in the groundwater at depth, results of the water-supply wells sampled on June 30, 2015 indicated a detection of chloromethane at 4.2 µg/L in well WSW-8, the down-gradient well near the night watchman's residence. No constituents of concern were detected in the other water-supply wells. Chloromethane is considered to be a degradation product of carbon tetrachloride which was detected in our vertical extent well (DW-1). Based on the most recent results, Terracon is meeting with Goldsboro Milling on October 16, 2015 to discuss our plans for additional assessment to further delineate the contaminant plume in the groundwater and identify a source area for the contaminants. **Terracon's work on this project is progressing on a schedule to achieve the mandatory work phase completion deadlines established in 15A NCAC 13C .0302(h).**

Sincerely,  
**Terracon Consultants, Inc.**

Christopher L. Corbitt, PG, RSM  
Senior Project Manager

Cc: Mr. John Pike, Goldsboro Milling Company  
Mr. Allen McColl, Terracon
