Mr. Klingman,

The Solid Waste Section does not see any problem with adjusting the sampling schedule of the Swepsonville Landfill (closed) to conduct sampling in March and September. Please let me know if you have any further questions.

Ethan Brown

Ethan Brown
NCDENR-Solid Waste Section,

As we discussed during our conversation, Buxton Environmental, Inc. is proposing to conduct semi-annual groundwater monitoring at the Alamance County Austin Quarter Landfill (active) and Swepsonville Landfill (closed) around the same day in March and September. Historically, monitoring at the Austin Quarter Landfill has been conducted in March and September and monitoring at the Swepsonville Landfill has been conducted in April and October. Will the proposed sampling schedule be satisfactory to the NCDENR-Solid Waste Section?

Thanks,

Ross Klingman, P.G.
