Subject: Closure of LCID Landfill  
W.A. Page ACB Site / LCID Unit  
Permit 1605  
Doc ID 11377

Dear Mr. Page:

In previous communication regarding the LCID landfill, you expressed intent to close the site. In response the Solid Waste Section (SWS) sent a list of requirements to formally begin the closure process (Doc 10547). In the aforementioned letter the SWS also requested a schedule for meeting those requirements. Subsequently, the SWS received a letter from you in which August 1, 2010 had been specified as a deadline on which the requirements would be met (Doc ID 10667). To date the SWS has not received all the required information to close the site.

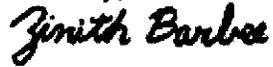

Currently, the site is neither permitted or properly closed. Under the North Carolina Solid Waste Management Act, 15A NCAC 13B .0563(4), Permits to Operate LCID landfills are issued for not more than five (5) years. SWS records show that the Permit to Operate for the facility expired. When a solid waste disposal site has been closed in accordance with the SWS requirements, the permit is terminated. The present status of the site is a violation of the Act and should be corrected.

By September 1, 2010 submit the required information for closure of the site. Failure to submit the information may result in enforcement action, which may include the assessment of administrative penalties of up to \$15,000 per day for each day of continued violation of any requirement of the Act, the rules, or any condition of your permit, including failure to properly apply for renewal of the permit.
