Subject: Closure of LCID Landfill
W.A. Page ACB Site / LCID Unit
Permit 16-05
Doc ID 12160

Dear Mr. Page:

Enclosed is a hard copy of the Letter of Closure for the facility listed above. Included in this copy is the sheet containing original signatures from the Solid Waste Section as instructed by the Carteret County Registry of Deeds on November 8, 2010. The original document remains the same, except for the aforementioned change. This Letter of Closure should be returned to the Solid Waste Section as previously instructed in the original Closure Package (Doc ID 11711). Within 60 days of receipt of this letter, submit a certified copy of the Letter of Closure recorded by the Register of Deeds.

Thank you for your time and attention. Please contact me if you have any questions, please contact me at 919-508-8401 or at zinith.barbee@ncdenr.gov.

Sincerely,

Zinith Barbee
Hydrogeologist

LAND CLEARING AND INERT DEBRIS LANDFILL
LETTER OF CLOSURE
FACILITY PERMIT NUMBER 16-05

October 7, 2010

Mr. W. A. Page:

is hereby issued a LETTER OF CLOSURE for the Land Clearing and Inert Debris Landfill located west of SR 1114, VFW Road in Swansboro on property described in the deed recorded in BOOK 715 AND PAGE 292 in White Oak Township, Carteret County, North Carolina in accordance with Article 9, Chapter 130A, of the General Statutes of North Carolina and all rules promulgated thereunder and subject to the conditions set forth in this LETTER OF CLOSURE.

POST-CLOSURE MAINTENANCE AND CONDITIONS

Post-closure maintenance and monitoring for this facility shall consist of whatever measures, procedures, and activities required to maintain this facility in compliance with the following closure conditions specified below:

Note: The Facility consists of the disposal unit and 100 feet of buffer or to property line, whichever is less, surrounding the disposal unit.

1. Any future disposal at the site shall require a new permit.
2. The Facility shall not be developed or utilized for residential, commercial, industrial, or institutional purposes, including but not limited to above- or below-ground construction or improvements such as utilities, roads, parking lots and sidewalks, except for any construction and improvements which are approved by DENR.

3. No surface or subsurface native or fill earthen materials may be removed from the Facility without the written permission of DENR or its successor in function. There shall be no alteration, disturbance or removal of the existing soil, landscape and contours, other than DENR-approved erosion control measures, unless approved by DENR.
4. The Facility shall be maintained in accordance with 15A NCAC 13B .0564 SITING CRITERIA, and 15A NCAC 13B .0566 OPERATIONAL REQUIREMENTS which require in part:
 - a. A buffer of 100 feet shall be maintained from the disposal area to property lines, residential dwellings, commercial or public buildings, and wells. A buffer of 50 feet shall be maintained from the waste boundary to all surface waters of the state as defined in G.S. 143-212.
 - b. The disposal area shall be maintained with a minimum of one foot of suitable soil cover sloped to allow surface water runoff in a controlled manner and maintained with ground cover sufficient to restrain erosion. Trees and other woody vegetation will not be allowed to grow on top of the disposal area.
 - c. Adequate erosion control measures, structures, or devices shall be utilized to prevent silt from leaving the site and to prevent excessive on site erosion.
 - d. Surface water shall not be impounded over waste.
 - e. Leachate shall be properly managed on site through the use of current best management practices.
 - f. The facility shall be adequately secured by means of gates, chains, berms, fences, etc. to prevent unauthorized access.
5. The Facility shall not be used for mining, extraction of coal, oil, gas or any other minerals or non-mineral substances unless approved by DENR.
6. Any surface or underground water shall not be used for any purpose. The installation of groundwater wells or other devices for access to groundwater for any purpose other than monitoring groundwater quality or remediation of groundwater contamination in accordance with a DENR approved remediation plan is prohibited.
7. Ground water separation of four (4) feet shall be maintained and/or devices utilized to maintain ground water at four (4) feet shall remain; Solid waste, vehicles, mobile homes and offices, appliances and other materials, including waste materials, recyclables, and virgin materials, shall not be disposed or stored on the Facility unless they are necessary to implement a DENR approved remediation plan.
8. Activities necessary to remediate contamination at the Facility, maintain the security of the Facility, prevent human exposure to contaminated materials, and to prevent erosion of contaminated soil at the Facility are permitted, if approved in writing in advance by DENR or its successor in function.

9. All other uses and activities at the Facility are prohibited unless approved in writing in advance by DENR or its successor in function.
10. No person conducting environmental assessment or remediation at the property, or involved in determining compliance with applicable land use restrictions, at the direction of, or pursuant to a permit or order issued by, DENR or its successor in function may be denied access to the property for the purpose of conducting such activities.
11. If methane monitoring wells and/or groundwater monitoring wells are required at the site they shall be maintained for the purposes of monitoring.
12. The Division may require further action in order to correct any condition which is or may become injurious to the public health, or a nuisance to the community.

I do hereby certify that the attached LETTER OF CLOSURE is an exact and true original of PERMIT NUMBER 16-05 for the W. A. PAGE ACB SITE / LCID UNIT Landfill.

Zinith Barbee
Zinith Barbee,
Hydrogeologist – Permitting Branch
Solid Waste Section
Division of Waste Management
