Subject: NOTICE OF VIOLATION
Docket #2016-021
Revlon Consumer Products Corp.
EPA ID #NCD980729875

Dear Ms. Mitchell:

On December 18, 1980, the State of North Carolina, Hazardous Waste Section (State) was authorized to operate the State RCRA hazardous waste program under the Solid Waste Management Act (ACT), N.C.G.S. 130A, Article 9 and rules promulgated thereto at 15A NCAC 13A (Rules) in lieu of the federal RCRA program.

On January 28, 2016, Phillip G. Orozco, representing the N.C. Hazardous Waste Section, inspected your facility for compliance with North Carolina Hazardous Waste Management Rules. During that inspection, the following violation was noted:

40 CFR 262.34(c)(1)(i) – 265.173(a) A generator may accumulate as much as 55 gallons of hazardous waste containers at or near any point of generation (the satellite accumulation area) and under the control of the operator provided that each container of hazardous waste remain closed, unless waste is being added or removed from the container. On the day of inspection, one 55-gallon drum container located at Line 1120 and one 55-gallon drum located at Line 1125 were observed open. A hose used to pump waste into each respective container was observed in the small bung hole of each drum. No one was working at either line at the time of inspection. The valve to each of the two hoses was left open but no waste was being pumped into the containers at the time of inspection.

In addition, a 55-gallon drum located in the Clean & Sanitize Room (Room-A) was observed with a funnel that did not provide a tight seal between the funnel and the connection that screws into the drum's bung hole. For this reason, the drum was determined not to be closed in accordance with the rule.

You are hereby required to comply with the noted violation(s) by March 28, 2016, at which time a re-inspection may be performed. If compliance with the violation(s) noted above are not met, pursuant to N.C.G.S. 130A-22(a) and 15A NCAC 13B .0701 - .0707, an administrative penalty of up to \$32,500.00 per day may be assessed for violation of the hazardous waste law or regulations.

In further satisfaction of **Docket #2016-021**, this facility shall provide written certification with supporting documentation on company letterhead confirming that the noted compliance schedule has been completed. Mail this certification to Phillip G. Orozco, NCDEQ, Division of Waste Management - Hazardous Waste Section, 1646 Mail Service Center, Raleigh, NC, 27699-1646; or, by email to: phil.orozco@ncdenr.gov by the noted compliance date.

If you should have any questions concerning this Notice of Violation or the NC Hazardous Waste Management Rules, please call me at 919-212-2501 or email me at phil.orozco@ncdenr.gov .

Sincerely,

A handwritten signature in blue ink that reads "Phillip G. Orozco". The signature is written in a cursive style.
