CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Dear Ellen:

Enclosed please find the payment for the Permit Modification Fee to relinquish GlaxoSmithKline (GSK) solid waste incinerator permit 32-06-I for the Environmental Safety Facility (ESF) incinerator. This incinerator was taken out of service in February 2005. GSK received approval from the NC DENR Hazardous Waste Section on April 27, 2007 for the closure report. On June 5, 2007, GSK submitted a request to relinquish the Solid Waste Permit.

NOTE:

- The Tox Incinerator, permit number 3208-I, was removed from service in 1999 and was demolished in 2004. Please retire this permit if still on the books.
- The Environmental Complex Incinerator (ECI) at the P-bldg, permit 32-09-I, is still active.

Please excuse the payment tardiness. If you have any questions, please call me at (919) 483-1696.

Sincerely,

Neal Parker
Manager EHS Operations
