Re: *Investigative Work Plan for MW-2R*  
Old Salisbury Road (OSR) C&D Landfill, Forsyth County, Permit Number 34-12, Doc ID 15331

Dear Ms. McHargue:

The Solid Waste Section has completed a review of the *Investigative Work Plan for MW-2R* dated August 10, 2011 (Doc ID 15323) and submitted on behalf of the Winston-Salem City/County Utility Commission by HDR Engineering, Inc. of the Carolinas for the Old Salisbury Road C&D Landfill. During the May 2011 water quality monitoring event and the subsequent June 2011 event, Benzene and Tetrachloroethene (PCE) exceeded the Groundwater Standards within groundwater monitoring well MW-2R. As a result of the confirmed groundwater exceedances, assessment monitoring is required, and the *Investigative Work Plan for MW-2R* was submitted to the Solid Waste Section.

At the request of the Winston-Salem City/County Utility Commission, a meeting was held at the Central Office in Raleigh on October 7, 2011. The following were present at the meeting: Ms. Jan McHargue, Mr. Ed Gibson, Mr. Mike Plummer, Mr. Ed Mussler, and Ms. Jaclynne Drummond. Based upon the discussions during the meeting, please resubmit the *Investigative Work Plan for MW-2R* in accordance with 15A NCAC 13B .0545 within 30 days of receipt of this letter. If you have any questions or concerns regarding this letter, please contact me at 919-508-8500 or at [jaclynne.drummond@ncdenr.gov](mailto:jaclynne.drummond@ncdenr.gov). Thank you in advance for your anticipated cooperation with this matter.

Sincerely,

Jaclynne Drummond  
Compliance Hydrogeologist  
Solid Waste Section
