Mr. Jones,

An update on the review of the Corrective Action Plan (CAP) for the C&D over MSW at the Greene County Landfill - Permit No. 40-02

On November 7, 2008, some of the Solid Waste Section staff (SWS) and I met Mr. Sean Patrick of Municipal Engineering Services Company, P.A. (MESCO) to address some questions /concerns regarding several of their Corrective Action Plans (CAP) among which the site listed above is included.

To date, the SWS has not received a response from MESCO regarding Greene County's revised CAP.
