**REPORT:**

Visited site as result of complaint by neighbor through Ms. Manzi.  
 Complaint dealt with dust problem on road possibly associated with permit conditions / operations of Britton Coble Demo. L/F (Permit # 41-91-7).  
 Traveled road, noted approx. 12-15 residences on this road and approx. 2-3 businesses. Road is approx. 0.75 - 1.00 mile ± long and is a graveled road with moderately exposed base. Road has been recently scraped. There are no speed limit signs posted on this road.  
 Drove my vehicle back up road towards Haffine Mill Rd. at 30 mph and noticed considerable amount of dust generated.  
 Entered Mr. Coble's property and after properly identifying self, looked over his landfill operation and discussed his plans for closure of site, etc.  
 I advised Mr. Coble of complaints re: dust and trucks coming to his demolition landfill and the permit condition re: dust on Ruralview Rd. imposed by Guilford Co. Dept. of Public Health upon issuance of his permit.  
 While talking with Mr. Coble, observed 6 vehicles traveling road at speeds estimated at 25-35 mph. All generated considerable amounts of dust.  
 Mr. Coble stated that he could not regulate how an individual drove on a public road, but he would remind all drivers again bringing loads to his site to keep their speeds down. He estimates on avg. day, 10-12 loads come to his site. Mr. Coble quite cooperative.  
Impression : Permit condition re: dust control (speed-related) on a public road, is not enforceable. This should not have been included in Coble's permit conditions. No other demo. landfill has this condition imposed. No apparent violations observed at this demolition landfill.  
POA : Letter to Ms. Manzi, to share with complainant, addressing all aspects of this particular complaint situation, and suggestions re: dust control.
