Permit No. 32D-LCID  
Doc ID No. 11459

Dear Mr. Currin:

On July 20, 2010, I mailed a letter to you (see copy attached for reference) and sent a copy the same day via e-mail to John Tucker, P.E., requesting the permit application received on April 5, 2010 be revised (i.e. mostly the operations plan, financial assurance, etc.), since this presently inactive LCID facility may become active and incorporate mining/grinding operations in the future, according a subsequent letter by Mr. Tucker sent on your behalf, June 14, 2010 to the Solid Waste Section. According to the e-mail sent to Mr. Tucker on July 20, 2010, I stated to submit the additional information (revised application) within 30 days. To date, the Solid Waste Section has not received the requested information. By September 20, 2010 submit the required information. Failure to submit the information may result in enforcement action, which may include the assessment of administrative penalties of up to \$15,000 per day for each day of continued violation of any requirement of the Act, the rules, or any condition of your permit, including failure to properly apply for renewal of the permit.

Thank you for your attention to and cooperation in this matter. If you have questions about this letter, please contact either me at 919-508-8524. Also, my e-mail address is [Brian.Wootton@ncdenr.gov](mailto:Brian.Wootton@ncdenr.gov)

Sincerely,

Brian Wootton
