Subject: Iredell County CDLF Closure

Mr. Lambert,

Please find the attached letter regarding the closure of the Iredell County Construction and Demolition Debris landfill. If you have a problem with the file or any questions on its contents please let me know. Please note, I will only be assisting John Murray with regards to

the closure of the C&D landfill. If you need assistance with any other Solid Waste activity please continue to contact, and work with, John.

Best regards,
Allen Gaither

January 13, 2009

Mr. Allen Gaither
NCDENR - Environmental Engineer

Subject: Construction & Demolition Debris Unit Closure
Iredell County Landfill
Iredell County, Permit #49-03, Document ID No. 6531

Mr. Gaither:

Iredell County Solid Waste Facility, Permit #49-03 discontinued the acceptance of waste in its C&D unit on June 27, 2008. The most recently filled areas were covered with soil per NCDENR requirements. Hydro-seeding operations were conducted during September 2008. Rainfall during September and October was sufficient to establish good vegetative growth but November's cold weather did prove to be stressful on new grass. During establishment of test holes on the older portions it became apparent some areas had experienced erosion and/or settlement. A decision was made to apply additional soil over the affected areas. Unfortunately December and January thus far have been very wet and not conducive to establishing a good seed bed. We have been able to begin spreading soil as of today, but have not seeded any newly disturbed area.

As late February through mid April are considered the prime months for establishments of turf grasses in the region, I would like to request an extension at the closure period. Iredell County respectfully requests an additional 3 months period to allow for establishment of vegetative cover.

Per your request I would like to submit the revised schedule as such;

RECEIVED

JAN 21 2009

**SOLID WASTE SECTION
ASHEVILLE REGIONAL OFFICE**

- Placement and final grading of cover soils completed by January 30, 2009.
- Seeding and installation of erosion control devices completed by April 3, 2009.
- Test holes dug and marked by April 17, 2009.
- Inspection by NCDENR between April 20th and May 6th.

Please feel free to contact me with any questions at 704-878-5432 or dlambert@co.iredell.nc.us

Respectfully,

A handwritten signature in cursive script that reads "David Lambert".

David Lambert.
