To: phil.prete@ncmail.net

The pictures were taken on Friday afternoon. Sorry for the delay with the pictures (we had some computer problems). The pictures were actually taken the day after a big rain.
(pictures received in RCO August 27, 2001)

The engineers are working on the erosion plan, but I am not sure the status. They have been very busy working on the franchise renewal for the past few weeks, but I will call them tomorrow and check on the progress.
