Subject: Avery County Closed MSW Landfill
Landfill Gas Monitoring Plan
Permit 06-03
Doc ID 9534

Dear Mr. Norris:

The Solid Waste Section (SWS) has reviewed and approved the proposed landfill gas monitoring wells outside the waste boundary. Location and details of the wells are specified in the Landfill Gas Monitoring Plan (plan) for the closed Avery County MSW Landfill. Richardson Smith Gardner & Associates submitted the plan, which has been entered into the SWS record as Doc ID 9527. The plan is in response to the Notice of Violation issued by the SWS Compliance Branch. The plan meets criteria specified in Regulation 15A NCAC 13B .1626 (4). Proposed in the plan is installation of wells, P-1 to P-8, depicted on Figure 2. Understood is that boring logs will be provided after installation of the wells. Well installation should be in accordance to applicable standards specified in Regulation 15A NCAC 2C.

Please contact me if you have any questions. I can be reached at 919-508-8401 or at zinith.barbee@ncdenr.gov.

Sincerely,

Zinith Barbee
Hydrogeologist
Solid Waste Section
