Re: **Clarification of Cell 2F Permitted Area,
Construction Quality Assurance (CQA) Certification
Charlotte Motor Speedway MSW Landfill Cell 2F**

Dear Mr. Little:

Atlantic Coast Consulting, Inc. (ACC) submitted a Construction Quality Assurance (CQA) certification for Cell 2F dated May 8, 2007. The referenced CQA certification included the entire 14 acres (approximate) that is designated as Cell 2F in the design permit. The certification also included 3 acres (approximate) of Cell 2G which will be permitted to operate in the future. The 3 acres was built in accordance with the design and CQA Plan but it is located under a temporary berm which is used to control stormwater and define the limit of waste placement in Cell 2F.

If you should have any questions or require additional information upon reviewing this submittal, please contact us.

Sincerely,

ATLANTIC COAST CONSULTING, INC.
