Re: Application for Permit Amendment
Carteret County Transfer Station
Carteret County, North Carolina
Permit No. 1604T-1993
Doc ID No. 6517

Dear Mr. Hardison:

An application for a Permit amendment has been submitted to the Division of Waste Management, Solid Waste Section (Division) on your behalf by your consultant Joyce Engineering, Inc. The Division has conducted a review of compliance with the Solid Waste Management Rules. There are few items in the application that require clarification and/or revision before the review can be completed. Please respond to the comments below:

Operation Plan

1. In accordance with North Carolina Administrative Code, the general information of the applicant should include: name, physical address, telephone number and email address of the applicant and contact person. The general information section of the operation plan needs to be revised.
2. Include a description of signs to be posted at the entrance and within the site to direct traffic. Signs must provide a description of the type of waste received, the types of waste prohibited, operating hours, permit number, and emergency contact phone numbers.
3. Include a description of site security and access control.
4. Include recordkeeping and contingency plans in the operation plan.

Electronic Copy

Submit an electronic copy of the operation plan either on CD or by email, whichever works best for you.

Please note the comments and questions raised above and provide additional information and revisions as needed. If you have any questions or wish to schedule a meeting to discuss the items referenced in this letter, please call me at 919-508-8520 or email me at agyeman.adupoku@ncmail.net.

Sincerely,

Agyemang Adu-Poku
Environmental Engineer II
Solid Waste Section
