Subject: Duke Marshall 1809

Dear Mr. Miller,

The Solid Waste Section (Section) has reviewed the Groundwater Sampling and Analysis Plan (SAP) for the Duke Marshall Steam Station FGD Landfill Phase 1, Cell 1. The Section approves the SAP for this facility. The SAP indicates nine groundwater monitoring wells (MW-8 (background), MW-9, MW-10, MW-11, MW-12, MW-13, MW-14, MW-15 and MW-16) and one surface water sample location (SW-1). These water quality locations are to be sampled semi-annually. If there are any changes to the SAP, please notify the Section as soon as possible.

If you have any questions or concerns, please feel free to contact me.

Sincerely,
Elizabeth Werner
