**SOLID WASTE SECTION**

May 9, 2008

Mr. Mark Herman  
City of Newton Public Works Department  
PO Box 550  
Newton, North Carolina 28658

Subject: Request for Additional Information  
Proposed Land Clearing & Inert Debris Landfill  
City of Newton, Catawba County

Dear Mr. Herman:

A meeting was held at your office on April 10, 2008 regarding information required to continue processing your application for a new land clearing and inert debris (LCID) landfill. During this we discussed the need for additional information the City of Newton would need to submit. Corrected design plans and details have been submitted by Al Stewart with W.K. Dickson. However, the City still needs to submit the following information in order for our office to continue processing the LCID application:

- 1) Documentation proving the waste will be at least 4 feet above the seasonal high water table
- 2) Meets and bounds for the landfill area including the required buffer of 100 feet
- 3) Updated operation plan including estimates of the quantity of waste to be received

Please forward this information to my attention as soon as practicable.

Should you have any questions regarding this matter please contact me at (828) 296-4703.

Sincerely,

Allen Gaither  
Environmental Engineer
